1. Passport of the Development Plan of the EP doctoral program 8D09101 -« Veterinary medicine»

1	The basis for the development	Strategic plan of Shakarim University for 2021-2025. Staff of the Department of Veterinary Medicine
2	Terms of implementation	2023-2026 гг.
3	Expected results of implementation	-provision of educational services at the level of world educational standards, ensuring the competitiveness of graduates in the labor market; -training of intellectually developed, creative specialists through the integration of the educational process, scientific research and innovation; --training of qualified and competitive personnel for agriculture in accordance with the requirements of national and international

2. Analytical justification of the EP

2.1 Information about the educational program

The educational program has been developed in accordance with the National Qualifications Framework and Professional Standards, according to the Dublin Descriptors and the European Qualifications Framework. The typical period of mastering the educational program of doctoral studies is 3 years.

8D09101 -« Veterinary medicine was developed by the Academic Committee and reviewed at the meeting of the Quality Assurance Commission of the Faculty of Veterinary Medicine and Agricultural Management (Protocol No. 4.1 of April 06, 2023)

Approved at the meeting of the Academic Council of the University (Protocol No. 8 of April 25, 2023).

The main criterion for the completion of the educational process is the development of at least 180 credits, with the award of the degree of Doctor of Philosophy (PhD) in the educational program 8D09101 -« Veterinary medicine".The purpose of the educational program is to train highly qualified scientific and scientific-pedagogical personnel capable of innovative activities in the field of science, education, and management. Educational program 8D09101 -« Veterinary medicine implemented by the Department of Veterinary Medicine has been developed taking into account the needs of the regional labor market, the requirements of regulatory documents of the Ministry of Education and Science of the Republic of Kazakhstan and is a system of documents for the organization of the educational process.

The educational program regulates the goals, expected results, content, conditions and technologies for the implementation of the educational process, assessment of the quality of graduate training in this field of training and contains characteristics of the program and areas of professional activity of the graduate, learning outcomes and acquired competencies, the policy of evaluating learning outcomes, the organization of the educational process that ensures the quality of training of students, description of the modules that make up the educational program. the program.

The content of the educational program is implemented through a curriculum developed in a modular format, in which two cycles of disciplines are provided for the first level of education: basic and profile disciplines, final certification.

Graduates can hold positions:- veterinary research organizations; - RSE "Republican Veterinary Laboratory"; -State Institution "National Reference Center for Veterinary Medicine"; - enterprises for the production, processing, storage, sale of food products and animal and plant feed; - veterinary and sanitary examination laboratories - state customs service institutions and checkpoints; -pedagogical activities in higher educational institutions and colleges. Universities and colleges that have an EP in the direction of "Veterinary Medicine".Universities and colleges that have an EP in the direction of "Veterinary Medicine";

2.3 Internal and external conditions for the development of EP

Doctoral students and teaching staff of the Department of Veterinary Medicine have unlimited access to information and educational resources and electronic library systems necessary to perform independent educational and research work. Electronic information resources: full access to databases – Scopus, Science Direct. The Portal of educational resources of the Shakarim University is functioning . Families ([http://ais.semgu.kz /](http://ais.semgu.kz/)) which presents educational materials of disciplines in electronic format in the Kazakh language. The classrooms of the Department of Veterinary Medicine are connected to the WI-FI network for online conferences, lectures, seminars with the participation of leading scientists of Kazakhstan, near and far abroad.

Issues of vocational training, professional practice and employment of graduates are solved at the department with the mandatory participation of employers. Every year round tables are held at the department, which are attended by heads and representatives of city and district akimats, agricultural enterprises. The department organizes meetings with graduates-employers, seminars with practitioners.

Research is conducted in accordance with the approved end-to-end program of practices and generally meet the qualification requirements for training specialists in this profile.

The research projects implemented within the framework of the EP are held on the basis of the RSE "Republican Veterinary Laboratory", , laboratory of veterinary and sanitary expertise, NAO "Kazakh Agrarian and Technical University named after From Seifullin.

The Educational Department of "Veterinary Medicine" cooperates with: Scientific Research Institute of Veterinary Medicine under the Ministry of Agriculture of Azerbaijan, "Kazakh National Agrarian Research University", NAO "Kazakh Agrarian Technical University. From Seifullina", "St. Petersburg State University of Veterinary Medicine", "Omsk State Agrarian University named after P.A. Stolypin".

In 2022, a memorandum of cooperation was signed with the Caucasus University of Turkey.

In the 2024-2025 academic year, the Department of Veterinary Medicine plans to introduce elements of dual education. The contract will be concluded with a Municipal State enterprise on the right of economic management of the "Family-Vet" veterinary department of the Abai region.

Contracts were concluded with the Scientific Agrarian Center and the farm "Kalikhanuly" of the Abai region.

2.4 Information about teaching staff implementing the educational program

№	Indicators	Units of measurement	2023-2024 academic year	2024-2025 academic year	2025-2026 academic year
1	Proportion of PTS with a PhD degree	%	100	100	100
2	Including the share of PTS with a degree in the DB/IC cycle	%	100	100	100

The Department of Veterinary Medicine carries out the educational process in three levels of study: bachelor's, master's and PhD doctoral studies. The formation of scientific and pedagogical personnel at the department is carried out by training through a master's degree, PhD doctoral studies, advanced training of faculty. Teachers of the EP undergo advanced training in leading universities of Kazakhstan (according to the plan of the FPK) and training seminars held by the Ministry of Education and Science of the Republic of Kazakhstan, universities and other organizations. The results of the scientific activities of teachers are reflected in scientific publications with an impact factor. Scientists in the Department of Veterinary Medicine have the Hirsch index (h-index) in the Web of Science and Scopus databases.

3. The main objectives of the development plan of the EP

No	Task name	Development timeframe	Stages of development
1	Improving and improving the conditions for obtaining a full-fledged, high-quality professional education.	Entire training period.	Development of measures to improve educational services for the development of professional skills
2	Updating the content of educational programs, forming the main professional competencies of future specialists in the field of veterinary sanitation.	Entire training period.	When updating the content of educational programs, include disciplines recommended by employers
3	Creating prerequisites for the independent search and research activities of the student as part of the experiment at all its stages of training.	Entire training period.	Inclusion of research and experimental work in the study of educational programs
4	Development of measures to develop work with scientific and technical information when using domestic and foreign experience in professional activities.	Entire training period.	Performance of measures for analysis and processing of the obtained results
5	Consultations of employers and scientists of research institutes when choosing relevant and practically significant topics of master's and doctoral works.	Completion of doctoral studies	Employer, Stakeholder and Executive Advice

4. Risk Analysis EP

No	Name of risks	Remedial Measures
1	Decrease in the number of students on EP	Regular high-quality career guidance
2	Insufficient level of language knowledge to introduce polylingualism.	Increased participation of doctoral students and faculty in language courses
3	Decrease in employment	Communication with institutions, organizations with a high opportunity to undergo industrial practice and further employment
4	Insufficient development of external and internal academic mobility of PTS doctoral students	Increased involvement of PTS and doctoral students in external and internal academic mobility

5	Risk of decrease in PTS stability according to EP	Increasing the number of PTS studying for targeted doctoral studies, activating the work of teachers who do not have a scientific title
6	Low number of publications in cited journals	Increase in the number of articles in scientific journals
7	Lack of funded research topics.	Increase in the number of projects on research topics

5. EP Development Action Plan

№	Criteria	Expected results	Units of measurement	2023-2024 academic year	2024-2025 academic year
Direction 1. Training and methodological support					
1.1	Updating the educational program based on professional standards taking into account the recommendations of employers	Examination of the Educational Program «8D09101 - "Veterinary medicine in order to improve the practical orientation and development of professional competencies of graduates.	fact.	+	-
1.2	Monitoring and updating of catalogs of elective disciplines in accordance with the development of key and professional competencies, labor market requirements	Improving the quality of the content of educational programs by including elective courses aimed at developing the key and professional competencies of graduates in accordance with the requirements of the labor market.	fact.	+	+
1.3	Introduction into the educational process of modern learning technologies that contribute to the development of cognitive activity, communication ability of students	Improving the quality of teaching of educational disciplines, taking into account the novelty and variety of forms of work that contribute to the development of cognitive activity.	fact.	+	+
1.4	Involvement of social partners and employers in the development, examination of the implementation of educational programs	Improving the quality of educational programs implemented taking into account market requests and employer recommendations.	piece.	1	2
1.5	Development and implementation of elective courses in English	Introduction of disciplines in English into the educational process.	piece.	-	-

1.6	Holding seminars and round tables on the application of innovative technologies in the educational process	Introduction of innovative technologies into the educational process.	piece.	2	2
1.7	Publication of educational, educational, methodological and scientific literature on the implemented EP	Improvement of educational and methodological provision in the disciplines of educational programs being implemented.	piece.	2	2
1.8	Conclusion of contracts with foreign and domestic partner universities in order to develop the academic exchange of students of all levels and PTS	Creation of a base of foreign and domestic universities - partners for the development of the academic exchange of students at all levels and faculty.	piece.	1	1
1.9	Inviting students from partner universities to study for a semester, short-term internships, practice, etc.	Development of international recognition of educational programs, implementation of programs of academic mobility of doctoral students.	persons.	2	2
1.10	Participation of PTS and doctoral students in international academic exchange programs	Development of international cooperation with foreign universities implementing educational programs in the direction of Veterinary medicine.	persons.	1	1
1.11	Development of outgoing academic mobility of PTS and doctoral students in Veterinary medicine	Improving the educational program based on the use of experience in the implementation of such programs in leading universities of the Republic of Kazakhstan.	persons.	1	1
Direction 2. PTS					
2.1	Improving the professional level and training of scientific and pedagogical personnel for the implementation of educational programs once every 5 years	The share of PTS who have completed advanced training at the republican level is at least 20%	persons.	1	2
2.2	Improving the professional level and training of scientific and pedagogical personnel for the implementation of educational programs once every 5 years	Passing less than 2 teachers of the program of advanced training, retraining, internship of PTS at the international level.	persons.	1	1
2.3	Promotion of PTS publications in international publications indexed by WebofScience and Scopus databases	The increase in the share of PTS that published the results of scientific research in publications indexed by the WebofScience and Scopus databases is at least 30% of the total number of PTS.	%	2	2
2.4	Involvement of practical specialists in teaching and scientific activities	Participation in the implementation of educational programs of practitioners (at least 20% of specialists).	%	2	2
Direction 3. Internationalization of educational programs					

3.1	Conclusion of agreements on international cooperation with foreign universities	Implementation of joint projects, preparation of scientific publications with foreign partners, creation of bases for scientific internships of students	piece.	1	1
3.2	Attracting foreign students to study under the educational program of the 8D09101 - "Veterinary medicine."	Increase in the number of foreign students.	persons.	1	1
3.3	Organization of joint scientific and practical activities with international partners	Increasing the efficiency of scientific and scientific-methodological activities of the PTS, exchange of experience with foreign partners.	piece.	1	1
3.4	Invitation of foreign specialists to give lectures and consultations on doctoral projects and dissertations	Improving the content component of educational programs based on the introduction of the experience of foreign specialists in the implementation of educational programs.	piece.	1	2
3.5	Expansion of cooperation with Advanced Foreign Scientific and Educational Organizations in order to attract the most qualified foreign specialists to the implementation of educational programs	Formation of key and professional competencies in accordance with the practice of leading universities.	persons.	1	1
Direction 4. Logistics and digitalization					
4.1	Step-by-step equipping classrooms with technical training tools (projectors, panels, interactive and multimedia boards, multifunctional devices, webcam, projector screen, etc.)	Equipping classrooms assigned to the department with technical training tools (projectors, panels, interactive and multimedia boards, multifunctional devices, webcam, projector screen, etc.)	piece.	2	3
4.2	Automation of the educational process (testing, session management, movement of a contingent of doctoral students, dean's office, department, PTS load, schedule, library, syllabuses)	Information management based on the automation of the educational process (testing, session management, movement of a contingent of doctoral students, dean's office, department, PTS load, schedule, library, syllabuses)	fact.	100 %	100 %
4.3	Replenishment of the full-text database of the results of scientific research of PTS and students, PTS (articles, monographs, etc.)	Increase in the number of results of scientific works of scientists, research on PTS and students, PTS (articles, monographs, etc.)	piece.	2	3

4.4	Expansion of the fund of scientific and educational literature, including on electronic media according to the educational programs being implemented	Ensuring the implementation of educational programs based on modern educational and information resources, including electronic media	%	100	100
4.5	Monitoring of filling and improvement of the faculty website	Formation of the faculty website on various aspects of the implementation of educational programs.	%	100	100
